**International  
Media release**

## **US based Fortune 500 insurance organization purchases RapidRedact™**

The insurance organization, with more than 40,000 employees, has purchased and installed Onstream Systems' redaction software, RapidRedact™.

Disclosing the purchase, the principal of Onstream Systems, David Kelly, said he was very pleased that a Fortune 500 company had chosen [RapidRedact™](#) over competing products at a time in the US when robust, fail-safe redaction software was becoming a necessity for both Government and business.

Mr Kelly said, however, that he was not at liberty to disclose the name of the company involved because of commercial sensitivity.

The purchase was made through Onstream Systems' reseller, WR SystemsWR Systems is Looking to market RapidRedact™ into its widespread client-base for use in insurance and financial services, payroll and personnel information, legal services and law enforcement. I, it also plans to introduce Onstreams' Trapeze™, image and document retrieval and management software, to its client base.

"We are proud to have struck upon such a class organisation as Onstream Systems and it is a sincere pleasure to foster a meaningful long-term relationship," Woods said.
